Key Findings

- Critical Defects: Funds Transfer crash on invalid account & balance going negative.
 - High Defects: Transaction not visible in history, Logout not working properly.
 - Medium Defects: Login error message missing.
-

6. Risks / Issues

- Application not handling invalid inputs properly (security risk).
 - Negative balance issue → Major financial bug.
 - Logout defect may lead to unauthorized access.
-

7. Conclusion

- Overall Status: *Application is NOT stable for production release* due to critical defects.

- Recommendation: Fix all critical & high defects, then retest.
- 20/25 test cases passed → 80% success rate, but stability depends on fixing critical bugs.
